

COMICCRAFT

DOCUMENT 15: PROJECT DEMO PLANNING

S.NO	DEMO SECTION	DESCRIPTION	DURATION (MINS)	RESPONSIBLE MEMBER
1	Introduction & Problem Statement	Present the problem: comic creation is time-consuming, requires artistic skills, expensive tools. Introduce ComicCraft as the AI-powered solution. Show statistics on comic creation barriers	2 mins	Team Lead
2	Solution Overview & Architecture	Explain the architecture: FastAPI backend, Gemini Flash (outline) + Pro (story), Stable Diffusion (images), FPDF2 (export). Show tech stack diagram. Explain how data flows through the system	2 mins	Developer 1 (Backend)
3	Live Demo: Input & Generation	Open web app at http://127.0.0.1:8000 . Enter sample prompt: "A brave fox exploring an enchanted forest," character "Finn," setting "forest," tone "dramatic," art style "anime". Click "Generate Comic." Show terminal logs as each AI step completes	2 mins	Developer 2 (Frontend)
4	Live Demo: Preview & Export	Browse the generated 5-panel comic preview. Navigate through panels using arrows. Show narration captions and dialogue. Click "Download PDF." Open the saved PDF file to show all pages	1 min	Developer 2 (Frontend)
5	Mock Fallback Demo	Show the application working without API keys (mock mode). Demonstrate that the UI and PDF export still function perfectly for testing	1 min	Developer 3 (AI/ML)

6	Q&A Session	Answer questions about technology choices, scalability, challenges faced (image generation speed, API costs), and future plans	2 mins	Full Team
